

Sangster International Airport to roll out the red carpet!

Montego Bay, Jamaica, March 27, 2006 ... MBJ Airports Limited (MBJ) and Barbados based International Aircraft Management Inc (IAM) will be rolling out the red carpet in December 2006, with the opening of a separate terminal building exclusively for private and corporate aircraft.

Known as a Fixed Base Operator (FBO), IAM has been providing VIP services to visiting private and corporate aircraft across the Caribbean region since 1989. Currently the IAM Caribbean Network ranges from the Bahamas Out Islands in the north to Trinidad, Cayenne and Guyana in the far south covering some 45 airports in the region.

The company is set to commence ground breaking for the exclusive IAM Jet Centre: Montego Bay very shortly with a targeted opening to coincide with the peak winter tourist season and upcoming Cricket World Cup 2007. The new 4500 sq ft “five star” facility, will offer a very high level of traveler comforts, security and services to which the premium visitor is accustomed. The new executive terminal, which is being designed with a distinctive Jamaican sense of place, will house immigration and customs, allowing speedy processing for entry and exit formalities.

Jorge Sales, CEO of MBJ Airports Limited said “on a busy weekend we have between 15 and 20 private and corporate aircraft at Sangster international Airport. It was evident that we could further stimulate demand by working with a professional, international company that fully understands the private aircraft business. This special group of customers prefers to arrive in Montego Bay onboard private jets” Mr. Sales continued to say “And an exclusive FBO is part of our strategy to develop a world class facility in the Caribbean that is an emblem of pride to Jamaica”.

Managing Director of IAM Caribbean, Paul Worrell commented “ the IAM Jet Centre: Montego Bay will work closely with the local tourism and hotel / villa community to offer premium visitors an elegant Jamaican experience that starts and later ends literally at the steps of the aircraft”. Mr. Worrell also confirmed that the new facility will be operated by an all Jamaican team headed by veteran aviation executive, Mr. Wyley Sweeney.

The new IAM Jet Centre: Montego Bay will compliment the overall high end visitor product within the local tourism industry as well as enhance the scope of services that Sangster International Airport offers in the competitive global travel market.
