

Airport Update #2 Tropical Storm "Sandy"

Tuesday, October 23, 2012, 4:00 p.m. (local time) – At this time, Sangster International Airport (MBJ) remains fully operational with all airlines operating as normal.

It remains the intention of airport management to close the airport tomorrow morning after the first outbound flight at approximately 8:00 a.m. local time. The airport will remain closed during the storm and will re-open at the earliest possible opportunity. There will be skeletal staff on airport to monitor the terminal building and ensure security. Updates will be provided as necessary.

In any event, the travelling public is strongly encouraged to contact their respective airline directly regarding flight operations. Passengers are being advised to refrain from arriving at the airport without first making contact with the airline.

MBJ Airports Limited is also requesting industry partners to continue to make contact with the airlines regarding flight operations prior to transporting guests to the airport.

Arrivals and departures information, as well as airline contact numbers are also available on our website at:

www.mbjairport.com
