

Airport Update #3 Tropical Storm “Sandy”

Wednesday, October 24, 2012, 9:00 a.m. (local) – Due to the impending hurricane weather, Sangster International Airport (MBJ) is now closed as of 8:00 a.m. local time until further notice.

The airport will remain closed during the storm and re-open at the earliest possible opportunity. A skeletal staff to maintain the terminal building and environs as well as security will remain on site throughout the storm. We will continue to provide updates as necessary.

The travelling public is strongly encouraged to contact their respective airline directly regarding flight operations. Passengers are being advised to refrain from arriving at the airport without first making contact with the airline. While the airport will re-open as quickly as weather permits, it may take some time for airlines to resume their schedules.

MBJ Airports Limited is also requesting industry partners to continue to make contact with the airlines regarding flight operations prior to transporting guests to the airport.

International contact numbers for airlines operating at MBJ can be found on our website as well as arrivals and departures information.
