

**FOR IMMEDIATE RELEASE:**

**Baywest Wellness Clinic operates COVID-19 testing facility at Sangster International Airport.**

Montego Bay, Jamaica, 27 January 2021 // Sangster International Airport (SIA), Jamaica’s leading gateway to the world operated by MJB Airports Limited, has partnered with Baywest Wellness Clinic to operate a COVID-19 testing facility for users of the airport.

The partnership comes on the heels of the announcement for passengers traveling to the United States as of January 26, 2021 to provide a negative COVID-19 test result taken no more than 72 hours before their flight or proof of recovery from COVID-19 before boarding. In addition, effective January 7, 2021, the Canadian Government requires all travelers to provide proof of a negative COVID-19 molecular test result prior to boarding a flight to Canada. The test must be conducted within 72 hours of the traveler’s scheduled time of departure to Canada.

“We recognized the challenge this change in travel requirements may present to passengers and have moved quickly to establish a partnership with Baywest Wellness Clinic to offer a Covid-19 testing facility at the airport for the convenience of our passengers,” commented MJB Airports CEO Shane Munroe.

Baywest Wellness Clinic is to administer both polymerase chain reaction (PCR) and antigen tests to users requesting either test at the Airport and in compliance with all applicable standards stipulated by the Ministry of Health & Wellness and the various countries to which users of the airport intend to travel. Results will be communicated to customers via QR code, text, email and paper certification. Test results are returned to customers within the fifteen (15) minutes for antigen testing and forty-eight hours (48) for PCR at a rate of USD \$50 and USD \$150 respectively.

**Baywest Wellness Clinic** is a health and wellness facility located in the tourism belt of Jamaica serving St. James and surrounding environs, with the aim to provide their patients with the best medical support, treatment options and facilities to enrich their health care experience.

**About MJB Airports:**

MJB Airports Limited, operator of Sangster International Airport, connects Jamaica to more than 60 international destinations. A record of 4.7m passengers used the airport in 2019. MJB operates SIA under a 30-year concession awarded in 2003 and the airport provides employment to more than 7,500 persons. SIA has been named the Caribbean’s Leading Airport by World Travel Awards for 13 years.
