We are in search of qualified persons who are interested in a commitment to progress as we move forward to the fulfillment of our goal as the Leading Caribbean Airport.

MBJ Airports Limited invites applications for the position of:

Security & Ground Transportation Manager

Reporting to the Chief Operating Officer, the Security & Ground Transportation Manager is responsible for the efficient management of the Sangster International Airport security programme including administration and development of the departmental budget/business plan, setting operational goals and objectives and implementing the Corporate Strategic Plan. Develops and implements airport security policies and procedures to ensure safety of passengers, concessionaires, service providers, while projecting a positive public image for the airport and providing quality customer service.

In addition, the incumbent will be managing the airport ground transportation system and the overall management of vehicular traffic flow in and out of the airport, public and staff parking lots, revenue collection, as well as all other groundside activities at the airport, paying special attention to the service levels as set out in the Concession Agreement.

The position also manages the Security Coordinators, Ground Transportation Coordinators, Parking Toll Attendants and all other entities operating in the Security and Ground Transportation unit, with a focus on Security Contractors, Taxi Operators, Car Rental agencies, Tour operators, Red Cap Porters and other service providers.

Qualifications and Experience:

- BSc. in Aviation Management, Security Management, Business Administration, Management Studies or equivalent qualification from a recognized tertiary institution, plus
- A minimum of five (5) years' experience in airline/airport operations or equivalent with at least three (3) years at a management level.
- Certification in Aviation Security Management

Specific Knowledge Required:

- Sound knowledge of relevant ICAO, JCAA, IATA, and other applicable standards and regulations, required to maintain airport certification.
- Sound knowledge of the requirements for the development of an approved airport security programme.
- Sound knowledge of airline/airport security and air terminal operations systems.
- Sound knowledge of airport groundside traffic management and the queuing model for the Arrivals Hall.
- Knowledge of the tourism sector policies relating to ground transportation.
- Sound knowledge of restricted area access control system applications and methods.

The ideal candidate will possess excellent analytical, interpersonal and communication skills and the ability to develop operational contingency plans within dynamic team environment while having initiative and developing new ideas and techniques with a commitment to MBJ's mission, objectives as well as policies and procedures.

Interested persons should submit their applications no later than **January 30, 2023** to:
