The International Civil Aviation Organization (ICAO) had mandated all contracting states to develop and implement a Safety Management System by November 24, 2005.

While developing the document, MBJ Airports Limited concluded that an integrated Safety Management System requires that all employees whose business takes them on the Movement area (airside) should be certified in the following subject areas:

- ✓ Ramp Safety Awareness
- ✓ FOD Awareness
- ✓ Airside Vehicle Operation Permit for apron operations (D/A AVOP)
- ✓ Airside Vehicle Operation Permit for airfield access (D AVOP)
- ✓ Radio Communication for employees permitted to access the Manoeuvring Area (airfield)

Since October 1, 2006, employees of the Sangster International airport whose job description entails accessing the airside have been required to initially sit and pass Ramp and FOD Awareness examinations prior to renewing their Restricted Area Passes (RAPs).

Effective June 1, 2008, all current airport employees holding the following restricted area passes must be recertified as follows:

RAP Colour	Access to	Exam(s)	Recertification Cycle
RED	All areas	Ramp Safety, FOD Awareness, D AVOP, *Radio Communication	Every two (2) years
GREEN	Apron	Ramp Safety, FOD Awareness, D/A AVOP	Every two (2) years
YELLOW	Apron	Ramp Safety, FOD Awareness, D/A AVOP,	Every two (2) years
PINK	Domestic Apron only	Ramp Safety, FOD Awareness, D/A AVOP,	Every two (2) years

*note: to include initial certification

Electronic recertification will be done via the internet by assigning to the website: <http://quizstar.4teachers.org/> Once you have gained access to the website, please follow the guide listed below for completing all applicable tests:

Questions asked by students

Q:

I am trying to access my new class. However, it tells me that I have a username that already exists. How is that possible if I just started loading my information?

A:

Students in Quizstar have a single login for all their classes and these classes can be with different instructors. It may be possible that some other student under a different instructor has already taken the username. Try adding a number or different letters to create a unique username that is not already taken.

Q:

How does a student review his/her results after a test is submitted?

A:

When students complete quizzes, they have a link on the confirmation page which reads **Review this Quiz**. They can also review quizzes from the page showing all their quizzes. There is a column which has a button in the same row as the quiz title they want to review. The button is labeled **Review** and the column heading is **Review Quiz**.

Q:

I forgot my password. What do I do?

A:

Come in to the MBJ Operations Centre with a valid ID and speak to the Operations Centre Coordinator on duty between 07:00hours – 23:00 hours daily. The Coordinator will be able to supply you with your profile information.

Q:

What happens if I do not achieve the pass mark of 80% on a quiz?

A:

Come in to the MBJ Operations Centre with a valid ID and speak to the Operations Centre Coordinator on duty between 07:00hours – 23:00 hours daily. You will be given material on the failed subject to read and then allowed to retake the quiz at a time convenient to you.

Q:

Sometimes a quiz takes a long time to load or it “times out” and it does not go to the next question. The grade is then displayed as a zero. How do I fix this?

A:

Come in to the MBJ Operations Centre with a valid ID and speak to the Operations Centre Coordinator on duty between 07:00hours – 23:00 hours daily. The Coordinator will verify the failed score and then permit you to re-attempt the quiz at a time convenient to you.

Q:

When should I take the quiz?

A:

A quiz should be taken at least two days prior to the expiration of your Restricted Area Pass (RAP) or two years after you initially took tests in FOD and Ramp Awareness, which commenced October 2006.

AVOP and Radio Communication (if applicable) tests should be done as soon as possible as these tests were never a part of any previous recertification requirements. Results will be valid for two years.

Q:

What if I have a certificate from RC TRAINING & CONSULTING SERVICES LIMITED for Ramp Safety and FOD Awareness courses?

A:

These certificates are valid for two years from the date of issue that is imprinted on the certificate. The certificate must be taken to the MBJ Security Centre whenever you need to renew your Restricted Area Pass (RAP) within the two years validity period. You must attempt the Quizzes once the certificate is about to expire. Note the certificate does not cover Radio Communication and AVOP recertification.

Q:

I am a new airport employee and will be assigned duties on the apron, what do I do?

A:

Your company should ensure you get the prerequisite training that is necessary to get a pass for the apron, either via internal training or **from RC TRAINING & CONSULTING SERVICES LIMITED.**

Please contact MBJ for further details.

Q:

I keep getting redirected to the home page of QuizStar if I click on any link after logging in. What can be the problem?

A:

There may be a problem with how your Web browser handles "cookies." Cookies are pieces of information about how an individual computer user accesses information on a Web site. For example, if the Web site was offered in Spanish and the last time you used it you selected the Spanish version, the cookie on your hard drive from our site would remember that the next time you access the site the Spanish version should be displayed. QuizStar also employs cookies to verify that you are logged in.

If you feel that the system is accepting your password, but then boots you out, you may be logging in using incorrect data and you will see this message: "We do not recognize this username AND/OR password. If you are a registered user, please try entering your username and password again."

Q:

What are the Web browser requirements for QuizStar?

A:

The following browsers have been tested to work with QuizStar. Other browsers might not be compatible for some pages.

For PC:

1. MS Internet Explorer versions 6.0 and above.
2. Firefox v1.5 and above.

For Mac:

1. Firefox v1.5 and above.
2. Safari v1.5 and above.
