

Environmental Policy

The following is MBJ Airports Limited's (MBJ) Environmental Policy for Sangster International Airport (SIA):

MBJ Airports Limited is committed to:

- Protecting of the environment and the incorporation of pollution prevention strategies in its operations.
- Integrating environmental management measures with planning, design, construction, maintenance and operation of SIA facilities.
- Setting environmental objectives as appropriate to its operations and to the current regulatory framework.
- Making processes available for the identification, reporting, assessment and mitigation of environmental hazards associated with its operations.
- Meeting or exceeding all applicable laws, regulations and industry codes of practice while providing superior airport services.
- Preparing for environmental emergencies and coordinating contingency plans with responsible authorities and adjacent communities.
- Encouraging personnel to be aware of and meet their responsibilities for environmental protection, providing training where necessary.
- Striving for continual improvement of environmental performance and for preventing pollution, including the use of best available technology where cost effective.
- Minimizing negative environmental impact on the marine ecology within the Montego Bay Marine Park.
- Implementing strategies for the management and reduction of its carbon emissions where feasible.
- Communicating openly with employees, licensees/concessionaires, customers and the public on environmental aspects of airport operations and development.
